

**SUBJECT: Communication of new product codes**

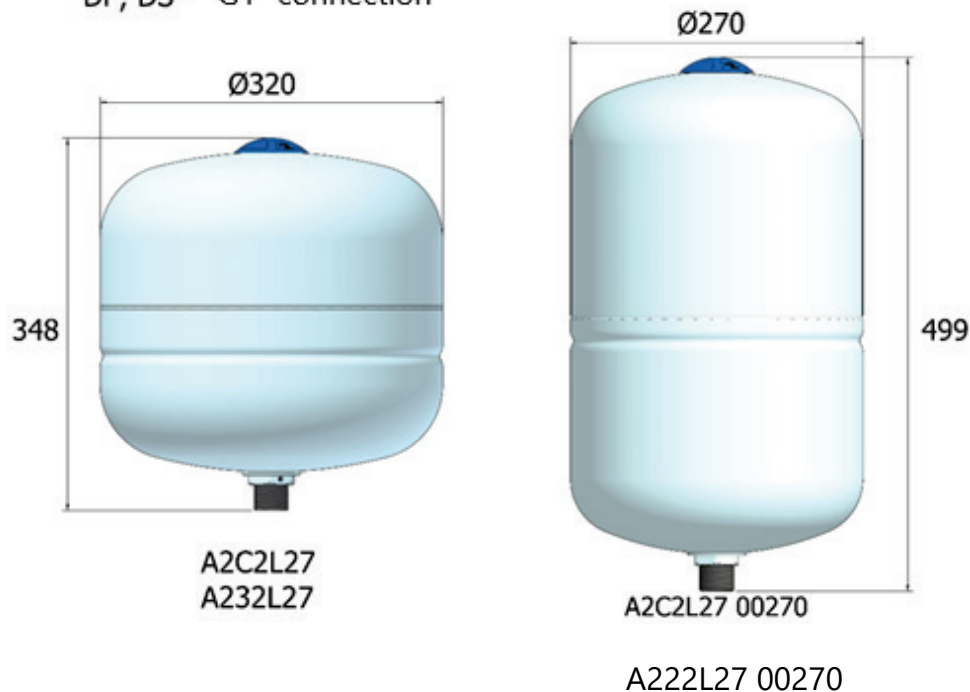

Dear Customer,

We would like to inform you that in February, once stocks run out, some 24-litre tanks will be replaced with new models, which will therefore be assigned a **new code** (previous codes will no longer be valid). The items involved in this change will differ slightly in size from the "old" models, but there will be no change in application and performance.

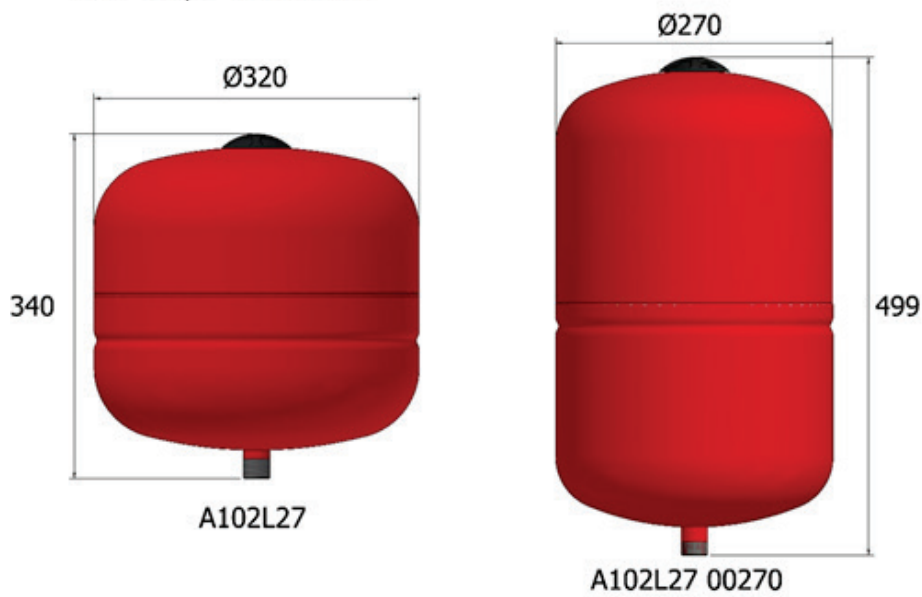

Listed below are the **new codes** that will replace the previous ones:

Model	New code
DP 24	A2C2L27 00270
ER 24	A102L27 00270
STP 24	A270J27 00270
DS 24	A222L27 00270
DS 24/p	A232L27 00270

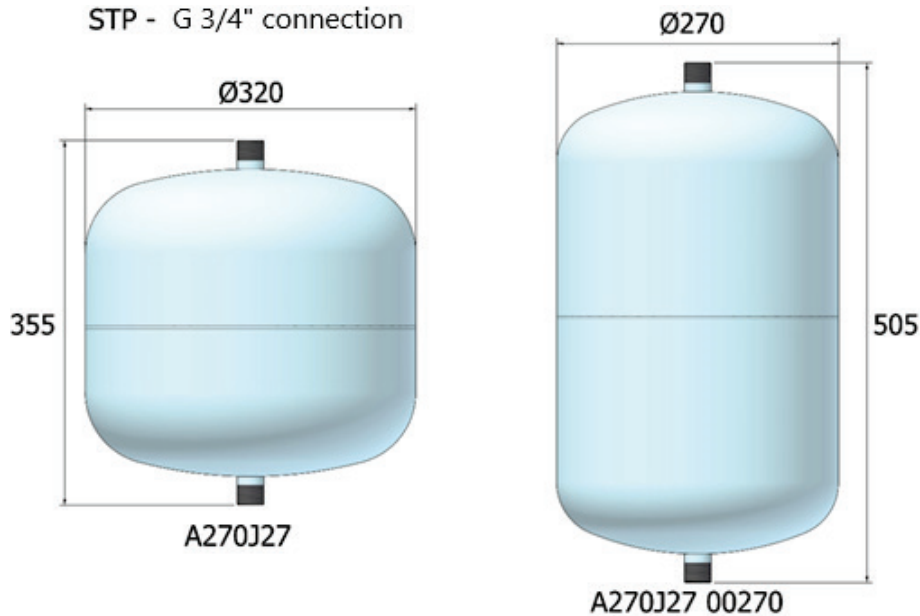

DP, DS - G1" connection

**ELBI S.p.A.**

ER - G 3/4" connection

STP - G 3/4" connection

We also attach the technical data sheets of the **individual** new models to this communication and for any further information, we remain at your complete disposal.

With kind regards,

ELBI S.p.A.
